

**MIS Sciences Corporation GovPoint®** is an enterprise class, FedRAMP compliant Infrastructure as a Service (IaaS) hybrid cloud environment, with both Dedicated Cloud and Virtual Private Cloud models available for our government organizations to maintain security and data protection based on NIST 800-53 V4 controls and FIPS.

Utilize the MIS Sciences environment to benefit from the security controls of a JAB P-ATO, without exhausting resources to re-architect your existing infrastructure.

● **Secure and Compliant Environment**

Meets a broad range of regulations, standards, and best practices including FedRAMP, International Traffic Arms Regulations (ITAR), FIPS 140-2, ISO 27001:2005, and AT 101 SOC Type 2.

● **Hybrid Environment**

A flexible hybrid architecture allows organizations to run new and existing applications in the cloud, on-premises or both, with ease.

● **Allow the Cloud**

Increase efficiency, agility and innovation with cloud utilization. Benefit from the expertise and experience of a trusted hosting and cloud services provider in MIS Sciences Corporation.

● **Cloud Deployment Options**

Subscriptions are available for both Dedicated Cloud and Virtual Private Cloud deployment models; and are elastic to evolve as your organization does.

**About MIS Sciences Corporation**

Since 1996, MIS Sciences Corporation has been delivering comprehensive technology, colocation, and hosting services for enterprise and government customers of all sizes, from startups and Fortune 500 companies to Government agencies. MIS Sciences provides managed services and hosting, development and application management services, disaster recovery, and electronic vaulting.

MIS Sciences is a full service IT Schedule 70 Contractor authorized to provide services under SIN 132-51, SIN 132-52 and Cloud SIN 132-40.
